- Perspective ESP available
- Level button on autopilot
- Dual AHRS
- More robust/fault tolerant autopilot

WHY CIRRUS?

Simply stated, no other airplane company in the industry comes close to Cirrus Aircraft. Nobody else can give you the freedom, flexibility, and convenience that you crave along with the innovation and luxury that you desire. It's your life, your schedule – Cirrus Aircraft can help you arrive quicker and with less hassle. Our spacious interior has leg room to spare and enormous gull wing doors with oversized windows that provide easy access and unparalleled visibility.

At Cirrus Aircraft, safety is always the number one priority — which is why safety always comes standard. No other certified general aviation aircraft manufacturer in the world provides the Cirrus Airframe Parachute System (CAPS™) as standard equipment. Standard safety features also include seatbelt airbags, high "G" energy-absorbing seats, airframe roll cage, and revolutionary avionics — peace of mind you won't find with any other plane.

Let Cirrus Aircraft take you flying — and discover for yourself how you can redefine your life.
